

## DETENSE ARCTICSILK®

DETENSE® mattresses reduce the static stress from your body that is accumulated throughout the day. This allows the user to get the best nights' sleep possible. By combining the best of leading sleep technologies, DETENSE® offers a comfortable and refreshing sleep experience.

With the luxurious renowned DETENSE ArcticSilk® ticking, the added benefit of silk-feel eco fibers increases its ability to stay cool fast and longer.

DETENSE ARCTICSILK® TICKING

## ADVANZE AIRE FLEX™

AIRE FLEX™ MATERIAL

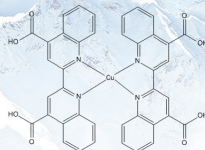

The revolutionary Japanese technology ensures a cooling night of sleep with increased airflow, regulating overall mattress temperature. Multi-dimensional support limits tossing and muscle activity, reducing body strains and aches. Anti-Microbial and Eco Friendly.

## WHY CHOOSE COPPER; CU+

A natural element best known for its health benefits for centuries. Infused into a mattress, it offers an array of advantages that can enhance sleep quality and overall well being.

Discover its potential to keep your sleep a safe haven. Copper's natural antimicrobial properties can resist the growth of bacteria, mold, and mildew, ensuring that your sleeping environment remains hygienic.

Copper mattresses are naturally hypoallergenic, making users less likely to trigger allergic reactions. It can also regulate body temperature effectively. As a highly conductive material, copper can swiftly and efficiently transfer heat away from the body, ensuring that people remain cool and comfortable throughout the night, leading to better sleep quality.

## HISTORY OF FOUR STAR

Four Star is an indigenous brand deeply committed to the belief that attaining a restful night's sleep is always attainable. Our journey commenced in 1968 with the modest beginnings of crafting mattresses by hand. Over the course of more than five decades, we have remained steadfast in our mission to deliver superior sleep experiences at accessible price points. Our lasting renown as a trusted household name known for our time-tested sleep solutions has been established through the endorsement and confidence of generations around the globe. Our unwavering commitment to quality and comfort has garnered us numerous esteemed international accolades, including the prestigious Arch of Europe Convention Awards and the Singapore Prestige Brand Award for 3 consecutive years.

## OUR MATTRESS WARRANTY

We believe in providing maximum comfort and value to our customers, our heritage and high standards set us apart from the rest. We offer up to 15-years limited warranty on all our mattresses. Please refer to our website for the detailed terms and conditions.

SUPPORTING YOU ALWAYS

DETENSE | ArcticSilk® Cu+

Discover a Realm of Unparalleled Comfort and Rejuvenation

The Detense ArcticSilk® CU+ mattress, represents a groundbreaking leap in mattress technology. With its unique blend of features, it offers a truly exceptional sleeping experience that prioritises relaxation, cooling, hygiene, and adaptive support. With Revolutionary New Technology, the Detense ArcticSilk® CU+ mattress is at the forefront of innovation, incorporating state-of-the-art technology to enhance your sleep quality.

### SUPER PILLOW TOP

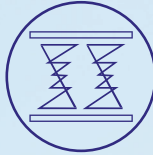

- 16 inches (+/- 2cm)
- Hour Glass Shaped Individual Pocketed Spring System
- 2cm Precision Springs
- Copper Infused Ticking
- Dupont™ Sorona® Fiber
- Foam Encasement and Edge Guards
- 5 Zones Support
- Bio Based Memory Foam
- Rest Tech Precision Foam
- Dual Layer Natural Latex
- Dual Layer Aire Flex™ Japan Technology
- High Resilience Foam

## PRIMARY PRODUCT FEATURES

### CU+

The infusion of copper into our product not only makes it naturally antimicrobial and hypoallergenic but also prevents the proliferation of bacteria, mold, and mildew, ensuring better hygiene while enhancing its durability.

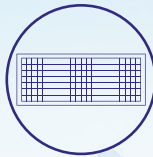

### Dual Tension Hour-Glass Spring

Adaptive to the contour to support our body shape for optimal comfort and alignment. With the unique structure, motion transfer is minimized.

### 5 Zone IPS Support

Providing exact support to each body part based on the weight applied on different zones, thus achieving proper spine alignment as you sleep.

### Rest-Tech Precision Foam

High Performance profiling foam that is highly responsive offering point to point support. Three-dimensional profiling enhance airflow, thereby promoting natural air circulation and facilitating a cooler sleeping experience.

### Enhanced Anti-Static Discharge

Prevent the buildup and discharge of static electricity, enhancing comfort, alleviate muscle tension, and reducing sleep disruptions.

### Dupont™ Sorona®

An eco-friendly performance fibre crafted from plant-based materials, prioritising sustainability without sacrificing performance, aiming to reduce carbon footprints by 63%.

### Eco-Friendly Material

Bio Based Memory Foam - Conforms to the standard of the:

- (BN16640) Carbon content test
- (BS EN1725:1998) reliable and quality product standards test
- (SVHC EC 1907/2006/ RoHS 2011/65 & 2015/863) safe materials test

### JUNIOR TIGHT TOP

- 6 inches (+/- 2cm)
- Individual Pocketed Spring System
- Copper Infused Ticking
- Aire Flex™ Japan Technology
- Dupont™ Sorona® Fiber
- Foam Encasement
- Bio Based Memory Foam

### TIGHT TOP

- 10 inches (+/- 2cm)
- Hour Glass Shaped Individual Pocketed Spring System
- Copper Infused Ticking
- Dupont™ Sorona® Fiber
- Foam Encasement
- 5 Zones Support
- Bio Based Memory Foam
- Rest Tech Precision Foam

### EURO TOP

- 11 inches (+/- 2cm)
- Hour Glass Shaped Individual Pocketed Spring System
- Copper Infused Ticking
- Dupont™ Sorona® Fiber
- Foam Encasement and Edge Guards
- 5 Zones Support
- Bio Based Memory Foam
- Rest Tech Precision Foam
- Natural Latex

### PILLOW TOP

- 12 inches (+/- 2cm)
- Hour Glass Shaped Individual Pocketed Spring System
- Copper Infused Ticking
- Dupont™ Sorona® Fiber
- Foam Encasement and Edge Guards
- 5 Zones Support
- Bio Based Memory Foam
- Rest Tech Precision Foam
- Dual Layer Natural Latex

### PLUSH TOP

- 13 inches (+/- 2cm)
- Hour Glass Shaped Individual Pocketed Spring System
- Copper Infused Ticking
- Dupont™ Sorona® Fiber
- Foam Encasement and Edge Guards
- 5 Zones Support
- Bio Based Memory Foam
- Rest Tech Precision Foam
- Dual Layer Natural Latex
